

**CPXL 20-12**
**Extreme Cyclic battery**

**Dimensions (mm)**

**Standard terminal (mm)**

Nominal voltage		12.8 V
Nominal capacity		20 Ah
Maximum charging current		20 A
Maximum discharge current		20 A
Maximum cycle life		> 70% after 1000 cycles
Operating temperature range		-10°C    60°C
Charge voltage		14.6V
Standard terminal		Threaded Insert 5mm
Housing material		ABS
Dimensions	length	181.5 mm
	width	77 mm
	height	167.5 mm (±1 mm)
Approx. Weight		2.66 kg
Packing		1 pc/box

**Typical applications:**

- Electric Vehicle
- Electric Wheelchairs
- E-bike
- Lawn mowers
- Golf-Carts
- Medical Equipment
- Boats

- LiFePO4 Lithium Ferro battery
- High charging/discharging current
- Can be discharged, charged or stored in any position
- Cannot be connected in series because of internal PCM

Models available			
Model	Capacity (Ah)	Dimensions (mm)	Weight
CPXL 20 – 12	20	181.5 x 77 x 167.5	2.66 kg
CPXL 26 – 12	26	165 x 125 x 175	3.96 kg
